

Copilot for Microsoft 365 Discovery Assessment

Your first step to get ready for the next generation of AI

Generative AI promises to fundamentally change the way people work. Copilot for Microsoft 365 combines the power of large language models (LLMs) with your organisation's data, but we understand the possibilities and journey are difficult to navigate and unique to every organisation.

Designed as an initial engagement, the Microsoft 365 Copilot Discovery Assessment, delivered by Atech, will provide high - level visibility regarding your technical and people readiness to realise the success of the possibilities, aligned to your business goals.

Our Approach

Use Cases

Determine the use cases of Copilot for Microsoft 365, within your unique organisation. Highlighting the functions and teams within your business that will benefit the most from the implementation and adoption of Copilot.

Identify your stakeholders

Understanding the champions within your organisation who will drive the implementation and possibilities of Copilot. Not just IT but influential change makers who will maximise your success and futureproof your investment.

Assess your technical readiness

Understanding the technical readiness for your organisation considering and highlighting core areas of the Zero Trust framework that enables the secure implementation of generative AI.

The Atech Copilot Discovery Assessment is delivered remotely and provides the following outcomes:

- ➊ A report overview detailing your organisation's Microsoft 365 Copilot readiness
- ➋ Technical requirements to get your organisation's data AI-ready
- ➌ Identified Key Business Stakeholders and use cases
- ➍ Recommended next steps, including technical and user adoption readiness

Using the Microsoft Copilot for Microsoft 365 Optimisation Assessment, we will be able to assess how far along your organisation is in adopting AI and suggest the modern digital tools you need to get there.

Using the Atech framework for Copilot for Microsoft 365, Atech will recommend next steps based on the output of this Discovery assessment. We guide organisations through their Copilot enablement journey using our four-stage approach:

1. Atech Discovery Assessment
2. Microsoft funded* Copilot for Microsoft 365 Workshop
3. Copilot for Microsoft 365 Zero Trust Essentials
4. Microsoft funded* Copilot for Microsoft 365 Adoption Accelerator Assessment
