

## Copilot for Microsoft 365 Workshop

Your first step to get ready for the next generation of AI

Microsoft Copilot promises to fundamentally change the way people work. This latest innovation of AI presents enormous opportunities for organisations and here at Atech, we're able to support you to understand how it will enhance your goals and supercharge your entire workforce.

Designed as a three-phase engagement, the Microsoft 365 Copilot workshop, delivered by Atech, helps organisations assess their needs, prioritise Copilot scenarios, and define an actionable roadmap.

### Our Approach

**Assess**  
Define scope, identify business stakeholders, and gather information on key business scenarios. Complete and review optimisation assessment and guidance.

*2 meetings, 120 minutes*

**Art of the Possible**  
Showcase the intelligence added to employee experiences by unleashing creativity, unlocking productivity, and leveling up skills (included in the demos).

*Multiple meetings, up to 4 hours*

**Build the Plan**  
Develop a plan to implement recommendations based on prioritised scenarios. Define next steps and timeline to develop and implement the solution.

*2 meetings, 120 minutes*

The Atech workshop can be delivered remotely or in-person and includes the following considerations:

- ➊ The possibilities of Microsoft 365 Copilot, including product demos
- ➋ Technical requirements and considerations to get your organisation AI-ready
- ➌ An assessment of your organisation's Microsoft 365 Copilot readiness
- ➍ Identification of key stakeholders and your individual organisation use cases
- ➎ Recommended next steps, including technical and user adoption readiness

Using the Microsoft Copilot for Microsoft 365 Optimisation Assessment, we will be able to assess how far along your organisation is in adopting AI and suggest the modern digital tools you need to get there.

We'll provide an overview of your readiness and make recommendations for next steps, based on your unique situation:
